Paul Hodson, Head of Unit Energy Efficiency, DG ENER, European Commission

Christiane Egger, Upper Austria Energy Agency

Anna Tenje, Vice-Mayor of Växjö city, Sweden

Networking cocktail

### What is Energy-Efficiency-Watch 2?

The project of Energy-Efficiency-Watch 2 (EEW2) aims to facilitate the implementation of the Energy Services Directive. Since its start in September 2010 the project has activated and consulted core regional and local networks, experts, industry associations and main market actors and carried out a survey on the implementation of energy efficiency policies in the EU. Also the 2<sup>nd</sup> National Energy Efficiency Plans were screened. The project results offer a good overview of the implementation status, good practices and gaps in policy packages across the European Union.
